Problem & Solution

Problem

Global borders and relentless travel restrictions have caused people to suffer, businesses to falling apart.

Solution

A borderless Metaverse solution to create the decentralized Soland City; a place where people, devs, & projects can support limitless opportunities to come together. Create new opportunities and support others anywhere in the world. Form a global Soland: a new, virtual financial community.

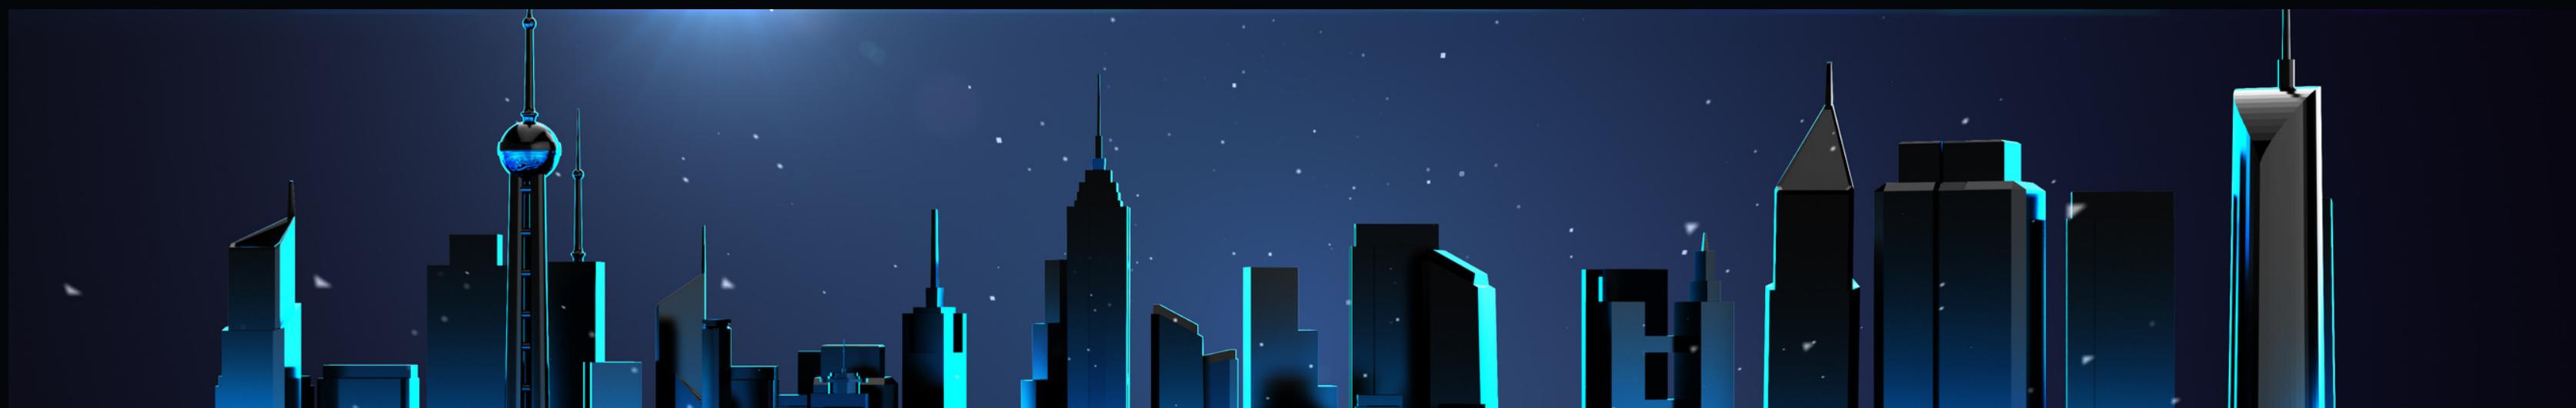

Soland Virtual City

A unique Virtual Financial 3D District with both a utility collection & token to support development and Liquidity Pools of a DeFi City Metaverse

Collection of 8000 Utility NFT's.

Each NFT includes a hidden amount of Soland tokens that can be used with lending with lots of fun and rewarding functions

Randomly Minted

Sold out and minted in a random order

Randomly Rewarded

Randomly picks one Soland NFT Holder to win 10% from every sale until collection is sold out

JACKPOT Fund 10% of Every Sale

When all 8000 NFT's are sold it will randomly pick up ten NFT Holders to win 10% Jackpot fund

Non Fungible Liquidity

The largest part of the collection sales is put to the projects liquidity pools, relocked yearly.

DeFi combined with NFTs

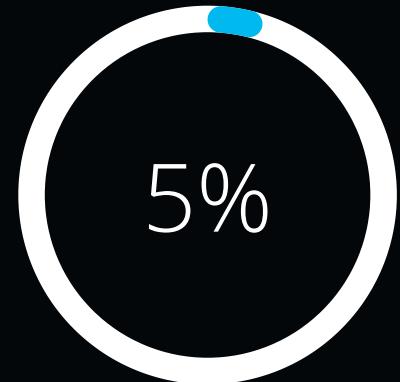

NFTs mixed with different DeFi services like staking, farming, and a unique service called baking.

Lend and Borrow

Borrow or lend NFTs and get tokens and vice versa (each Soland NFT has hidden token amount).

Sale Allocation

After the random reward and the Jackpot fund, the rest of the funds will be used as following:

Community Choice

NFT holders can vote for where this 5% will be used

Development

Development and related expenses
/
/

Marketing

We aim to have continuous marketing going on

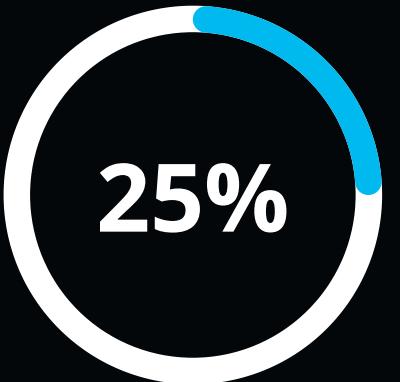

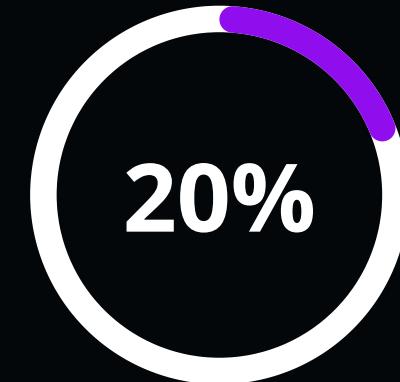

/

/

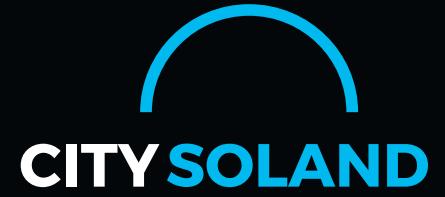

Liquidity Pool

Biggest part of the collection sales will be put in the project token liquidity

Initial Liquidity TBA

We Welcome

People

Engage with a like-minded cohort of your peers within the metaverse

Devs & Projects

Contribute to an ever-expanding ecosystem of online finance

NFT, DeFi, web3

Showcase your artwork and help develop Soland

Soland City with NFTs and DeFi

A borderless virtual cityscape designed to be explored.

Earn passive income and support your favorite projects.

Experience something that has never been done before.

Core Soland Services i.e Buildings

- 1 NFT Towers
- 2 Exchange Tower
- 3 Farming
- 4 Staking
- 5 Baking
- 6 Lending

Soland MetaVerse

Buildings gets taller because every
projects get its own floor
(use our designs or design your own floor)

Floors

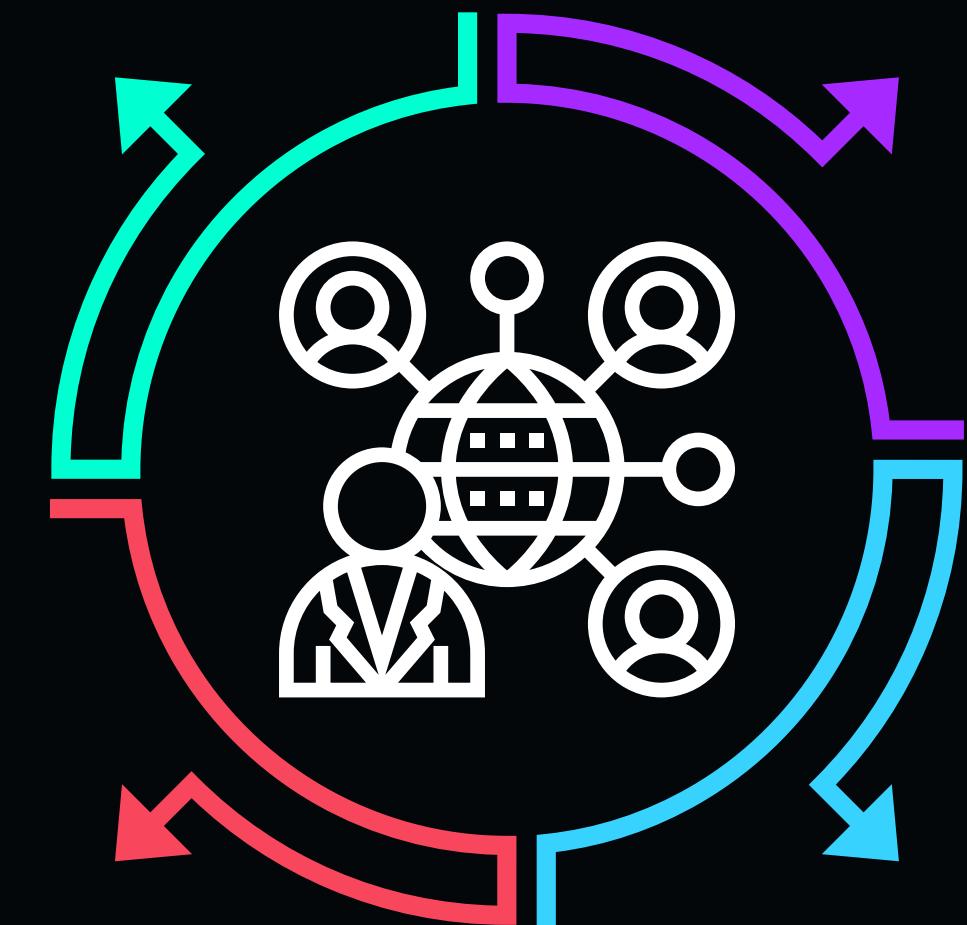

When a project joins the Soland Metaverse, a new floor is added to a building. Use predesigned floors or design one yourself.

The sky is the limit in Soland.

The Virtual Financial District

People

Decentralized finance offers many routes for arbitrage and attracts users to the platform.

Partnerships

We deploy buildings for our partners and they utilize our customer base.

Developers

Our active development team encourages collaboration with the rest of the web3 community.

Projects

Staking, liquidity pools, NFT, and community lotteries are just the beginning.

Brand Of Project

We will be happy to answer any questions as possible. We welcome ideas, developers and projects to come and join us to develop our futuristic virtual financial district, a borderless Soland City.

We have rebranded from ETH as dint.info and dint.finance due to unstable network fees and time to time way too over our understanding.

Thank You!
